TO: Deputy Director for Administration

Harry,

Here is another memo on the space problem. I pass it along for your information.

MEMORANDUM FOR: Deputy Director for Science and Technology

FROM:

Director of SIGINT Operations

SUBJECT: Office of SIGINT Operations Space Requirements
for FY-1984

1. It has come to my attention that a recommendation has been made by the Deputy Director for Administration to the Executive Director regarding the space allocations that will accrue with the occupancy of [] towards the close of FY-1983. These allocations provide for moving elements from the Headquarters Building and from leased space in the Rosslyn area [] that will nullify DDS&T plans to consolidate the Office of Development and Engineering (OD&E) [] and allow the Office of SIGINT Operations (OSO) to occupy all of []

2. As we demonstrated at the Annual Review, occupying all of the [] would satisfy OSO's space requirements for our FY-1983 and FY-1984 expansion with the exception of the long standing requirement to enlarge the Signals Analysis Division located on the ground floor of the Headquarters Building. If the space allocation plan now proposed by the DDA is eventually approved, OD&E will have to proceed with relocating SPG and OSO/GSD into [] leaving OSO with an outstanding space requirement of 15,805 square feet to accommodate remaining FY-1983 and anticipated FY-1984 expansion (see Attachment A). In addition, OSO would need to acquire 10,650 square feet for relieving the badly overcrowded conditions now existing in SAD (see Attachment B). Thus, OSO would have a total space requirement of 26,455 square feet to meet FY-1984 requirements.

3. In the event the space allocation of Agency components as now proposed is implemented, I understand that approximately 85,000 square feet will be vacated in the Headquarters Building. Even after SOVA/DDI is relocated to the Headquarters Building, 45,000 square feet should remain for reallocation. It is proposed that OSO's FY-1984 requirements be met by []

Where did he get this?

allocating 26,455 square feet from this residual space in the Headquarters Building to OSO. Since the Office of Security is one of the Headquarters Building components scheduled for relocation [redacted] suitable space on the ground floor will be vacated to provide for the expansion of SAD.

25X1

4. While OSO and OD&E continue to support the plan for consolidation of their components [redacted] I strongly urge that if this plan is rejected you support our alternative proposal to obtain space in the Headquarters Building to meet OSO space requirements for the ensuing year. We will probably not have another opportunity to acquire suitable space [redacted] in a very long time. Therefore, your assistance is urgently requested in bringing our requirements to the appropriate Agency officials who will pass on the final space allocation plan.
